A man with glasses and a beard, wearing a dark green shirt, sits at a white kitchen island, holding a white mug. A pregnant woman with dark hair, wearing a grey top, olive green pants, and a long grey and white patterned cardigan, sits on a stool at the island, holding a glass of orange juice. They are in a modern kitchen with grey cabinetry, a white countertop, and a glass display cabinet filled with white dishes. The floor is light wood. The text "Say hello to new." is overlaid in white script across the bottom of the image.

Say *hello* to new.

Yes, we all like to dream about having the best kitchen space. However, our priorities make it sometimes a little bit challenging. Good thing EuroLuxe Cabinets partnered with Synchrony HOME Credit Card to help you get the best things in life. With flexible terms and 24/7 secure account management, you really never have to worry about your kitchen project.

With EuroLuxe Cabinets and Synchrony HOME Credit Card, your dream kitchen space becomes a reality. It is time to wake up now.

Contemporary Elements For Your Dream Space

European Kitchen Design Elements for the American Home

There is going to be a prevailing trend for kitchens this 2021—and it is about combining almost opposing sensibilities to render a dynamic feel to the space. Traditional American homes are beginning to adapt to this design shift as we see more kitchens meld Urban visions with the idyllic organic forms. The kitchen is no longer just dictated by the rigorous requirements of utilitarianism—it must also serve the varied purposes of living. To achieve a well-rounded kitchen space, here are some combinations that you should consider.

1. *Sleek Lines and Glossy Finishes with Country Influences*

Modern individuals prefer their kitchens to be more streamlined and sometimes even border on clinical. However, the addition of properly selected elements will result to a kitchen that is well-appointed, highly-functional, and yes, still warm and homey. For those who prefer a direct-to-the-point approach, we recommend the 1900 Series by Belmont Cabinets.

2. *Smooth Surfaces with Dynamic Interiors*

The genius that is the handleless cabinet door lends a more sophisticated vibe through visual continuity. However, a hardworking kitchen demands more solutions than just taking away the “visual clutter.” Further your kitchen’s functionality by paying strict attention to what’s hidden behind the cabinet doors.

3. *Frameless Cabinets
with Built In Appliances*

In the ever-growing demand for quality real estate, available space is tagged as luxury. With Frameless Cabinets, drawers tend to be bigger and interior shelvings become adjustable giving you more control for personalization. Bellmont Cabinets are engineered with rigid box construction and secure full-top for superior strength and added support for solid surface countertops. Further this modern sensibility by installing built-in appliances for your kitchens. By identifying a permanent position for these high-tickets items, you become one with your space through muscle memory thereby increasing kitchen efficiency.

4. *Closed Cabinets with Floating Shelves*

Closed kitchen cabinets are becoming a thing of the past—but one cannot deny the importance of having this kitchen essential. For an updated take, make sure your kitchen utilizes the available vertical spaces with lots of floating shelves. Not only these shelves provide additional space for your implements, they also allow your space to have a more open, spacious feel. Not to mention that they can also be used as platforms to display the decorative items you have in your kitchen.

Fully Automatic Wine Appliance

PLUM 

Combining smart and instinctive design, Plum becomes a much-needed addition to a connoisseur's kitchen. Just like a well-trained sommelier, this sleek unit allows you to serve wines in perfect temperature with just a soft touch. Moreover, The Plum Wine Preservation System pressurizes the bottle with argon so you can enjoy a bottle for up to 90 days. It even connects with your smartphone to provide more in-depth information about wine and winemaking.

Complete your kitchen with Plum. Call EuroLuxe Cabinets today!

Timeless Kitchen Design Trends

This 2021, our humble kitchen takes central role in all our social functions. It is where we gather around to talk and relax with family and friends. It is where the fondest and most meaningful memories are made. Even zoom calls are made in the kitchen. Having a beautifully designed kitchen that's highly functional is essential to everyday living. Moreover, having a timeless kitchen design will save you money and additional work of remodelling in the future. Whether you invest in a new kitchen or update your old one, you'll definitely want to add timeless elements that will never go out of style. Here are some kitchen design features that will stand the test of time.

1. *Neutral Tones*

Peace and tranquility are feelings we want to adapt to combat the crazy disruptive year we just had. White, ivory, beige, greige, taupe, grey are neutral tones that never go out of style. Combine these muted tones with wood and marble to create a warm and inviting space.

2. *Two Tone*

Contrasting colors add personality and a lot of aesthetics to the kitchen. Like Belmont Cabinets 1900 Avant, you can mix wood finishes with a bold solid color like blue. Add a brick backsplash to the mix, and you'll have an eye-catching timeless kitchen design.

3. *Practical Innovative Storage*

Keeping things spic and span in a high-traffic area comes with multiple benefits. Apart from inducing a feeling of calm and in-control, making your drawers organized by having multiple compartments improves the workflow in your kitchen. Truly, an organized kitchen—even drawers, the ones that cannot be readily seen—will never go out of style!

4. *Kitchen Appliances*

The kitchen has become the center of entertainment for many homes. In every party, there's always a bit of wine that goes around. At the end of each event, there's a cup of coffee for those who prefer a non-alcoholic drink. Invest in kitchen appliances to help you entertain your guests. Miele offers a wide range of wine refrigerators and coffee appliances that would fit your kitchen style and budget.

5. *The Kitchen Island Dinner Table*

Dining islands will never go out of style. This is the special space in the kitchen where you can cook, eat and spend time together. Not to mention that it can also be a space for prep when the demand arises.
