Vero Series

# vero series

Inspired by Italian minimalist design, the Belmont Vero Series emphasizes clean lines and soothing symmetry for an elegant, harmonious look. Eliminating handles and hardware helps focus the eye where it belongs — on the stunning door styles and complex finishes.

- Vero is Italian for “true”, “real”, and “genuine”.
- The Vero series is the true Euro design.
- Vero keeps up with its reputation of effortless style by the absence of handles, hardware that comes with the handles which then provides a smooth transition between materials.
- The linear rail system is a slender and unseen channel for easy access to drawers and cabinets.
- It's simple, functional, and sophisticated, leaving your space calm and clutter free.

## Veneer Offerings

- Cherry, Walnut & Sapele
- Natura Collection of pre-finished wood veneers.

## Bellmont's Standard and Specialty Wood Veneers

- Veneers are excellent choices for contemporary flat panel door styles.
- Being thin 'slices' (what are called flitches), of actual hardwoods, veneers provide the same richness and grain variation as solid wood, but without some of the challenging characteristics such as expansion and contraction.
- Veneer panels are dimensionally stable in most climates; whereas solid woods are susceptible to expansion and contraction with changes in humidity levels.
- Plus larger panel dimensions can be easily achieved with veneers as opposed to solid woods.
- Belmont wood veneer doors are premium A grade face side and a #1 character grade back side.

## Best Maintain Wood Door Finishes:

- Occasionally clean using a soft cloth dampened with a mild soap solution. Wipe with a clean towel dampened with water only.
- Dry with a soft cloth.
- Do not use petroleum type cleaners or those containing ammonia, alcohol, or abrasives.
- Surface marks and scratches can easily be repaired by using the touch-up kit shipped with your cabinet order.
- If required, color match caulking is available through Color Rite ([www.colorriteinc.com](http://www.colorriteinc.com)).
